Few people realize that when they put a classified advertisement in the Independent-Enterprise they are soliciting the business of in excess of ten thousand people—people who are potential customers of the advertiser. There is not a farm or a home in Payette county but that does not have surplus articles—articles which are not now being used. Somebody wants that article and the best way to reach them is through the advertising columns of the classified page. Classified advertising costs as little as twenty-five cents per issue—depending on the number of words in your classified advertisement.
