ROUND UP OF RATION NEWS

Farmers bought and accepted early delivery of the largest tonnage of commercial fertilizers and fertilizer materials in the Nation's history during the past 12 months, the War Food Administration says, thus enabling plants to keep working at the capacity permitted by available labor and also avoiding a critical shortage of fertilizers on farms.

Ration certificates issued for purchase of men's rubber boots and rubber work shoes are now good indefinitely, OPA says.

Householders should fill their coal bins during the summer months because the shortage of motor trucks and drivers for distributing coal is expected to reach a critical stage by the beginning of the coal season, the Office of Defense Transportation advises.

On July 1, nearly 100,000 Cadet Nurses from the 1,064 approved schools of nursing will celebrate the first birthday of the U. S. Cadet Corps.

Candy production of more than 2½ billion pounds reached an all-time high in the U. S. last year, according to the Department of Commerce.

No large-scale resumption of bicycle production will be possible until the war in Europe has been brought to a successful conclusion, WPB says.

Carryover of feed grains at the end of the present feeding year probably will be the smallest for any year since 1937,

the Bureau of Agricultural Eco-

nomics predicts.

A new type of cotton-gauze bandage, developed in the War Production Board's Department of Agriculture laboratory, tends to fit and cling better than ordinary gauze and it allows greater freedom of movement in bandaged joints, the Department of Agriculture reports.

INVASION CUTS CIVILIAN SUPPLIES

Recent shortage of many civilian supplies may be attributed to military demands of the forces of liberation. Examples are radio tubes and parts, gasoline and oil. In spite of a radio manufacturing output over 10 times as great as pre-war, military demands for radio tubes and repair parts have increased. This explains why civilians are finding it hard to get these items.

The War Production Board, the Petroleum Administration for War reports, has issued a directive to reduce the protective cover for rabbits and other mammals.
