ROUND-UP OF RATION NEWS

WPA says—Production of bicycles and "B" hearing aid batteries is authorized again on an industry-wide basis. Production of flashlight cases and other portable electric lights is expected to be high enough to supply essential civilian users, particularly in rural areas, and buyers may now "get them" without any "paperwork." Veterans desiring to establish or re-establish small business will get special consideration in priority assistance, allocations, appeals and applications for special authorizations.

OPA says—To relieve a heavy demand particularly from farmers, a supplemental quota of truck tires has been authorized for September. Tire shortages totaling \$2,000,000 have been asked in 35 court actions against concerns charged with ignoring Southern Pine lumber to set prices higher than the legal ceiling. October ration values are unchanged except for butter which has been raised from 46 to 50 points in the face of declining production. Available for October rationing are 3,000 new passenger cars, with a reserve of 400. Less than 20,000 new cars (not quite a two-day supply) are now available. Any increase is about two cents in the retail price of a No. 2 1/2 gal. can of further news is expected as a result of new ceiling prices based on a below-average crop. Ceiling prices for single ammunition shells in the future will be determined by dividing the full box price by the number of shells in a standard box. Leather-soled moccasins of the house-slipper class, previously ration-free, are now rationed. WPA says—The entire production of dried apples will be set

Contrary to the belief of many people you do not buy space in a newspaper when you advertise—instead you purchase circulation. The newspaper which has the largest circulation performs a much better service to its customers than does the paper with a small circle of readers. The Independent-Enterprise has the largest circulation of any newspaper read by the people of Payette county. Should you send a post card with your message to every one of our readers it would cost you approximately twenty-five cent dollars. YOU CAN CARRY THE SAME MESSAGE TO THEM IN THIS NEWSPAPER FOR AS LOW AS TWENTY-FIVE CENTS.

BRITISH REPORT ON FLYING BOMB

First reports that the Germans were developing a long-range bombardment weapon of a novel type reached London in April, 1943. The British reveal in a recently issued "Report on the Flying Bomb" that reconnaissance photographs in November, 1943, revealed that the Germans were building concrete structures all along the French coast, from Calais to Cherbourg, British and U. S. Air Forces. In December began attacks on these flying bomb sites, forcing the Germans to abandon them and to construct less efficient camouflage sites of simplified design. During 80 days bombardment, approximately 8,070 bombs were launched, of which 2,300 reached London—killing 5,479 persons, injuring 15,434 persons and damaging 149 schools, 111 churches and 28 hospitals. In fighting this attack from August, 1943, the British and U. S. Air Forces dropped 100,000 tons of bombs on launching and experimental stations, losing 450 aircraft and 2,000 flyers.

FREE JOB CHOICE FOR VETERANS

All manpower controls have been removed insofar as veterans of the present war are concerned. The War Manpower Commission announces: Veterans do not need statements of availability in order to change jobs; they may be hired by any employer without referral by the United States Employment Service; they may be hired without regard to employment ceilings and in seeking employment through the USES they are entitled to any jobs of their choice, without regard to essentially or priority status of such jobs.

FURLONG RATINGS ARE INCREASED

Inasmuch as processed foods are now valued only in multiples of 10 ration points, the ratings of these foods for service men on leave, or furlough for 72 hours or more have been increased from eight to 10 points for each nine meals. OPA announces: Civilians eligible for

From where I sit... by Joe Marsh

One Less Tramp in Our Town

Esther Curless found a tramp asleep in the hammock in her apple orchard, and she didn't hesitate a minute. She grabs a rolling pin—and the last they saw of him, the tramp was making dust tracks to the state line.

"It ain't only that I don't like laziness," says Esther, "special in wartime. It's that that particular hammock is Ned's hammock—and Ned's fightin' for it overseas!"

Then she shows us Ned's last letter where he says: "I keep dreaming of my hammock in the

orchard, with Rags lying underneath, and a cool glass of beer beside me."

A soldier's picture of home! The little friendly pleasures that he misses so! From where I sit, Esther's mighty right in wanting to defend those "little things" from all intruders. They're among the things our men look forward to returning to—the things we want to keep intact for them.
