WAR FUND DRIVE MOVING SLOWLY

Only \$1615 Is Raised Of A Quota Of \$5700; Victory Crew At Work

Payette county's war fund drive is moving very slowly with only \$1615 raised so far of a quota of \$5700, according to W. B. Blackaby, county chairman.

The chairman reported, however, that the lag in the campaign was undoubtedly due to the slow start in majors and lieutenants of the Victory Crew getting material in the hands of the soliciting sergeants.

He expects that the coming week will see a concentrated effort on the part of all solicitors and that the figure raised will be greatly increased at that time.

While little work has been done in some sections of the county an excellent job has been done in others he said. In the latter category comes the Little Willow section where Charles Bolton reports that the people there had donated \$159 to the fund.

Blackaby also urged that people who for one reason or another had not been contacted by the solicitors leave their donations with him or Jack Dyer at the bank.

Payette county must meet its War Fund quota he said as it has done in every previous war drive because the work of the twenty-two relief organizations which are supported by War Fund money will be just as important immediately after victory as it is now.

Mosses Hear From Son In Prison Camp

Mr. and Mrs. Fred Moss received another letter this week from their son, Lt. Robert B. Moss, fighter pilot, who is in a prison camp at Rostock, Germany. This letter is dated June 20, 1944 and like the other three, they have received from him since he was taken prisoner on Jan. 29 last, stated that he was well but had not heard from his parents and asked how everything was at home.

Evidently the letters being written regularly to him are not getting through, his father said.

PARALYSIS SCARE PASSES IN AREA

No New Cases Develop Here Since The First Of October

School and health authorities are breaking easier this week since no new cases of infantile paralysis have developed in this county since October 1 when one child in the West Side school took night have picked up the disease.

The one victim, Little Janice Bösser, 10, daughter of Mr. and Mrs. Henry Bösser, has improved steadily and is now on the road to recovery, it has been reported.

At the time the case was discovered both Dr. John J. Kaiser, county physician, and W. C. Sonnen, supt. of schools, were considerably concerned and instituted a series of precautionary measures to be carried out daily in the schools to help prevent the spread of the disease.

These have been adhered to religiously since but now that a full three weeks has elapsed since the first and so far only case, they feel that the danger is passed.

Little Janice had not been out of the county for some time prior to Oct. 1 and authorities have no clue as to where she might have picked up the disease.

A single case, in a community, however, is more or less usual with the disease.

We are very proud of the surgical dressings program which our Payette county chapter has contributed to so faithfully.

We are very proud of the supplies dressings on hand at present, which are to be packed in waterproof bags with cartons lined with waterproof linens and floated to the battle areas wherever needed.

Now that the fall crops are harvested we hope the women will come out and help us. We are indeed grateful to the business women and teachers who have been so faithful to come in the evenings. In some orchards this year, Alerton Hatch, acting county agent said, the blight was particularly bad and it allowed to develop will greatly handicap the industry.

Methods of control he said include a spray during the next few weeks, and that is the reason he is sending out the circulars at this time.

Seen About Town

Keith Anderson scrubbing on a charwoman as he scrubs out his own office. Harry Leedy setting a good example for the WPA when he put so much pressure on the broom handle that it gave way as he swept off the sidewalk.

There is more than one way to beat the cigarette shortage according to George Sedmeyer—roll your own—and that is just what George was doing last Monday. We know why many people go to Reno but when Claude Thurston makes a trip to the diverse metropolis therein lies a story. Heard on the street, "If you don't vote you have nothing to say about what any official does" and that is a lot of real sound advice. One Payette resident says he doesn't believe in taking up the leaves until his neighbor lives in the path or his neighbor lives in the path.
