Faulty Wiring

Faulty wiring should be replaced by a competent electrician.

Former Resident Is Tank Hero

Under the heading, "Lone Tank Annihilates 125 Nazi Vehicles in Six Hours," the following story in the Nov. 23, 1944 issue of Stars and Stripes, army newspaper, tells of the exploits of a former Payette boy:

WITH THE THIRD ARMORED

DIV.—When 1st Lt. Vernon G. Dingley turned his Sherman tank, the "Eliminator," loose on a 125-vehicle German column in a six-hour onslaught recently, he not only "eliminated" the column—he annihilated it.

Dingley, with the support of one other tank, had been ordered to intercept and destroy the fleeing enemy convoy, while the rest of the Third Armored went on to knife through the Nazi lines. Moments after he left his unit, he spotted the Jerry column, and, under the cover of the second tank, ripped up and down the road until the breach of the tank cannon was blistering hot, firing with everything he and his crew had.

When Nazi resistance ceased, almost six hours later, the road looked like Hell's main highway. Tallying his kill, Dingley found that the "Eliminator" had smashed five 170 mm. artillery pieces, one 80mm high velocity gun, and more than 100 other vehicles. Some of the Germans manning the convoy had escaped, but most of them lay sprawled dead, along with their artillery horses, beside their smoking vehicles.

Lt. Dingley is the son of Mr. and Mrs. Al Dingley who resided in the Washoe district up until twenty years ago and then moved to California.

Home From Overseas

Sgt. Francis Carpenter of Fort Ord, Calif., came Sunday evening to visit his brother, S/Sgt. Chester A. Carpenter who has just returned from overseas duty.

formia. The story of the exploits of their son was sent by the Dingleys to C. E. Dibble, with seven years before he was married.

THE BIBLE SPEAKS

By R. L. Daisell

Ten Commandment Series No. 3

"Wherefore then serveth the law

It was added because of transgressions. TILL THE SEED SHOULD COME to whom the promise was made."—Gal. 3: 19. Verse 16 tells us that the seed is Christ, so when Christ came we can look for that old law to be removed, and that is exactly what was done, for verse 25 states in plain, unmistakable language that "we are no longer under the school master" or the law. Col. 2: 14-16 says: "Blotting out the handwriting of ordinances that was against us, which was contrary to us, and took it out of the way nailing it to his cross.—Let no man therefore judge you in meat, or in drink, or in respect of any holiday, or of the new moon, or of the sabbath days; which are a shadow of things to come; but the body is of Christ." Friends, that old law is gone, every bit of it. Not a vestige of it remains. It was not destroyed, but was removed by the authority of the one who gave it.

Now those that teach that the Ten Commandments are binding upon Christians today, are forced into another false theory by the above scripture. That is, that God really gave two laws. One was given from Mount Sinai, and the other was given at Sinai. One is called the "ten commandments" or the law of God, and the other is called the law of Moses. One is said to be the moral law and the other a carnal law or "ceremonial law."

The Bible does not teach the two law theory, but uses the expressions "law of God" and "law of Moses" interchangeably. Never is the phrase "law of God" applied to the ten commandments alone, nor is the phrase "law of Moses" used to

designate the laws given through Moses and no others. Next week we shall cite scripture proving the falseness of such a theory.

Would you, too, like a free booklet on this subject? If so, just drop me a card with your name and address to P. O. Box 185, Weiser, Idaho.

Attend the Church of Christ in Fruitland or in Weiser. Everybody welcome!

A CARLOAD OF WATKINS MINERALS

**100 OPEN FORMULA
MINERALIZED
IODIZED
VITAMIZED**

SPEED-UP GROWTH AND PRODUCTION

SAVE VALUABLE FEED INCREASE PROFITS

Watkins improved Mineral Compounds have proved themselves in the feed lots of America to be an outstanding mineral supplement for cattle, hogs, poultry and other livestock. Because it is a properly-balanced mineral, it does help save feed.

John P. Klaasen writes, "I put my hogs on the market in six months weighing 260 pounds average and received a premium price for fine finish. These hogs received nothing but home-grown grains and Watkins Hog Mineral Compound." Watkins improved Hog Mineral Compound furnishes the necessary minerals for good solid bone structure. It improves feed efficiency.

"3 4.5 Pounds of Minerals Saves 174 Lbs. Grain"

Iowa Bulletin D-18, issued by Dr. John M. Eyard, says, "Three and four-fifths pounds of Mineral saves 174 pounds of grain." Leading nutritional authorities say that supplementing home-grown grains properly with well-balanced Mineral Mixture makes grain go 25 per cent further in producing meat, milk and eggs.

22 Vital Ingredients Speed Production, Save Valuable Feed and Increase Profits

Watkins Minerals did not just happen. They are the result of careful study on the proper mineral requirements of livestock and poultry, backed up by many years of experimental work on the Watkins Experimental Farms and in the feed lots of America. The need for every ingredient in Watkins Minerals has been proved at some time by experimental stations in the U. S. and Canada to be of value in a feeding program. For your profits' sake, use Watkins improved Mineral Compounds to cut down losses and increase production.
