CIVILIANS AT WAR

The Government needs and asks its citizens in this 170th week of the war to:

1. Help relieve the nursing crisis. All women, trained or untrained, can participate in one of the eight war nursing programs.
2. Address all overseas mail clearly, correctly and completely to avoid delays and disappointments.
3. Buy only what you really need this Easter. Dollars unnecessarily spent contribute to inflation.

How can a motor oil save gasoline?

Much gasoline loss is caused by gradual ring and cylinder wear. Gas mixtures then "blow-by," compression is reduced, performance gets rough. RPM Motor Oil slows this wear 'way down—sticks tight on hot or cold metal surfaces, insures cold motors against extra starting wear, protects critical hot spots on long runs. For more mileage, less wear—use Standard's RPM Motor Oil.
