There Are No New Cars

"JUST AROUND THE

Someday we will be advertising "New Chevrolets for Sale," but that day is far off—months, and perhaps a year or more.

The reason for our advertising now that we have NO NEW CARS is to let motorists know how important it is that they keep their present car fit. Don't let down now.

We are car-conservation specialists. Drive in any time for service that will prolong the useful life of your car.

How can a motor oil save gasoline?

Much gasoline loss is caused by gradual ring and cylinder wear. Gas mixtures then "blow-by," compression is reduced, performance gets rough. RPM Motor Oil slows this wear "way down"—sticks tight on hot or cold metal surfaces, insures cold motors against extra starting wear, protects critical hot spots on long runs. For more mileage, less wear—use Standard's RPM Motor Oil.
