Why my personal formula gives you coffee with an extra flavor "lift"

Here at Edwards we roast and blend coffee by a formula slowly perfected over 40 years. Our method is not an easy one or one that's easily learned. But we feel it does give you coffee with an extra flavor "lift"—rich, mellow and completely satisfying. Try Edwards Coffee for just 10 days. If you don't thoroughly enjoy it, your money will be refunded.

WE'RE VERY EXACTING about the coffees we buy. Without question, they must be the choicest coffees from only the finest growing districts of Latin America. Although the shape, color and size of the beans tell us much about their quality, we buy only after roasting and carefully tasting actual samples.

WE BLEND these beans not by weight but by flavor...for richness, smoothness and strength. We roast only by the controlled Thermale process which develops all the natural flavor in the bean. And because Edwards is roasted only to your grocer's order, it comes to you at the peak of freshness.
